

THE SMARTER WAY TO PREP

Most students don't fail from lack of effort. They fail from studying the *wrong things*.

AspireXPrep uses AI to identify the root cause behind every wrong answer — then targets each student's practice on the areas that will move their score the most. Less wasted time. Better results.

HOW IT WORKS

BUILT FOR EVERY ROLE IN YOUR ACADEMY

- Students**: Focused practice plans and clear direction on what to study next
- Teachers**: AI insights and assignment recommendations for every student
- Parents**: Progress visibility and score trajectory without the guesswork
- Academies**: White-label ready, built to manage students at scale

HOW WE'RE DIFFERENT
